IITG Project Title

2013-Stony Brook-Bugallo-Exploring New Horizons

Have you applied for, or received additional funds? (choose all that apply):

- Have applied for support from a large funding sources (e.g., NSF, NIH)
- Other (please specify in text box below)

What recommendations would you make to scale-up or share your project more broadly (within an educational sector, or perhaps SUNY-wide)?

To scale-up the project more, additional funding would be necessary as well as a repository where all materials could be shared in a better way. Also, more announcements for advertising the activities would be needed to capture a wider audience.

If you would like to create a community of practice within the SUNY Learning Commons, please describe "members of your community" who would be most interested in your outcomes. Please be specific (e.g., math faculty, instructional designers, student services, registrars, administrators, accreditation or assessment specialists).

Engineering, Physics and Computer Science Faculty

Do you intend to create an ongoing "Community of Practice" within the SUNY Learning Commons to continue work and dialog regarding this project?

Unsure at this time

Overall, how successful was IITG in meeting your project goals? (You may elaborate on your response in the final question if not addressed elsewhere.)

Extremely successful

We accomplished the projected goals as well as introduced and offered additional activities.

Do you wish your current abstract to be used?

Yes

File One Upload and Brief Description

Most of our activities and materials can be found at this site:
